

Name _____

Date _____

Make Inferences

Making an inference means using clues from the story, along with your own knowledge, to figure out something the text doesn't directly say.

Make inferences from clues.

1. Anna came home and saw muddy paw prints on the floor. Her dog, Max, was hiding under the table. What can you infer?

- A. Anna cleaned the floor.
- B. Max had been outside and made the mess.
- C. Max is eating dinner under the table.

2. Lucy smiled as she opened her gift box. Inside was the shiny necklace she had wanted. What can you infer?

- A. Lucy didn't like the gift.
- B. Lucy knew what was inside the box.
- C. Lucy was happy to get the necklace she wanted.

3. A girl was pulling on her boots while she looked outside at the falling snow. What can you infer?

- A. She is preparing to go outside in the snow.
- B. She is cleaning her boots.
- C. She is packing for school.
