Interpret A Fraction As Division

G5

A fraction shows part of a whole and can also mean division. The top number (numerator) is divided by the bottom number (denominator). Understanding this helps solve problems and connect fractions to real-life situations.

Q1 Divide the candies evenly among 4 friends. If there are 12 candies, how many candies will each friend get?

- A. 2
- C. 4

- B. 3
- D. 5
