Compare Capacity

GK

Compare capacity means looking at which container holds more or less. It helps us understand sizes and amounts, like choosing the right cup for water or the biggest jar for cookies.

Q1 Which holds less, a small cup or a big bowl?

- | | |
|-----------------------|-------------|
| A. Small cup | B. Big bowl |
| C. Both hold the same | D. Not sure |

Q2 Which has a greater capacity, a jug or a teaspoon?

- | | |
|-----------------------|-------------|
| A. Jug | B. Teaspoon |
| C. Both hold the same | D. Not sure |

Q3 Emma has a bucket and a mug. The bucket holds 5 liters of water, and the mug holds 1 liter of water. How many mugs of water equal the bucket's capacity?

- | | |
|-----------|-----------|
| A. 3 mugs | B. 4 mugs |
| C. 5 mugs | D. 6 mugs |

Q4 Which container holds more water, the glass or the bottle?

- | | |
|-----------------------|-------------|
| A. Glass | B. Bottle |
| C. Both hold the same | D. Not sure |
