## Make Inferences – Answer Key

When we **make inferences**, we use information from the text or pictures and what they already know to figure out what is not directly say.

Read the images and captions, then make inferences.

1

The chick opens its eyes and raised its wings.

Inference: The chick is  
very scared.

2

The girl clenches her fists and grits her teeth.

Inference: The girl is  
very angry.

3

The cat is wagging its tail.

Inference: The cat is  
really happy.

4

The boy observes a small bug happily.

Inference: The boy is  
interested in nature.
