Describe Things by Position

In writing, organizing your content is crucial for clear communication. One effective way to structure your descriptions is by **organizing things according to their positions or locations**. This technique helps readers visualize the relationships between objects or elements in space. Use **position words and phrases** to make your descriptions clear and precise.

beneath	between	in front of	under

Look at the diagram of a tree. Finish the paragraph by describing their arrangement from top to bottom. Use positional words and phrases in your sentences.

A tree has several parts that are arranged in a specific order. At the top of the tree

are the leaves, which spread out above the branches.

Below the branches is the trunk, a strong structure that supports the tree.

Beneath the trunk, underground, are the roots, which anchor the tree and absorb nutrients.
