

Name _____

Date _____

Organize Information Logically

Logical organization ensures ideas in a paragraph flow naturally and clearly. It involves structures like:

1. **Problem-Solution:** Presents an issue and steps to resolve it.
2. **Cause-Effect:** Explains causes and their consequences.
3. **Chronological Progression:** Orders ideas by the sequence of events.

Rearrange the numbered sentences below to create a clear, logical order. Consider the logical structure.

- A. Improving public transportation systems can help reduce traffic in busy cities.
- B. Traffic jams often result in frustration and delays for many commuters.
- C. Many cities experience heavy traffic during rush hours both in the morning and afternoon.

Correct Order: _____

- A. Plants create food through a process called photosynthesis.
- B. Sunlight serves as the energy source for photosynthesis.
- C. During photosynthesis, plants use sunlight, water, and carbon dioxide to produce glucose.

Correct Order: _____
