Elaborate on Ideas and Details

To **elaborate** means to develop further or **tell more** about something. Good writers elaborate on ideas and details to make their writing clearer and more interesting. As you write, **think about the questions your reader might have**, and how you can answer those questions by elaborating more.

1. Read Alex's letter. Then think of three questions you could ask to help Alex add more details.

Hi there!

I've been very busy lately. At school, my classes are full of interesting things. After school, I do activities that I enjoy. I like weekends the most. My friends are really fun to be with. One of them always makes me laugh. What about you?

Your friend,
Alex

2. Write back to Alex. Use your questions to elaborate your ideas with details. The answer varies.

Hi Alex,

I've been busy since I last wrote to you. _____

Hi Alex,

I've been busy since I last wrote to you. **At school, I have been working on a science project about plants, and it takes a lot of time. After school, I enjoy drawing and riding my bike with my friends. On weekends, we sometimes go to the park or watch movies together. One of my friends always tells the funniest jokes, which makes me laugh a lot.**
