Clarify Across Texts

How to Monitor

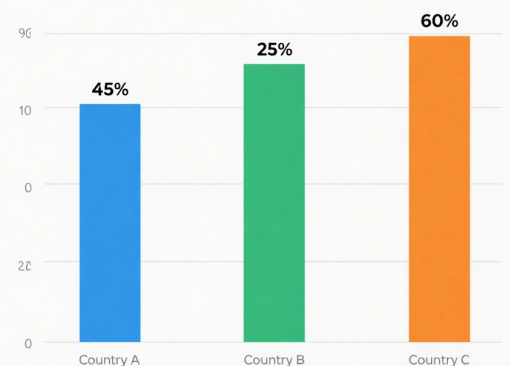

1. If part of the text is unclear, and think about its meaning.
2. If it's still confusing, try rereading, reading further, or using context clues and vocabulary tools. If needed, seek help for clarification.
3. Reflect on how these strategies improve your understanding of the text.

Read the passage below and answer the question.

Passage:

Renewable energy, like solar and wind, helps reduce carbon emissions. Some countries are investing in these technologies to combat climate change. However, solar panels need sunlight, and wind turbines need consistent wind, making them less reliable at times.

● Renewable Energy Usage by Country (2022)

1. What is the main benefit and main challenge of renewable energy, based on the text?

2. How does the bar graph help explain renewable energy usage in different countries?

Clarify Across Texts – Answer Key

How to Monitor

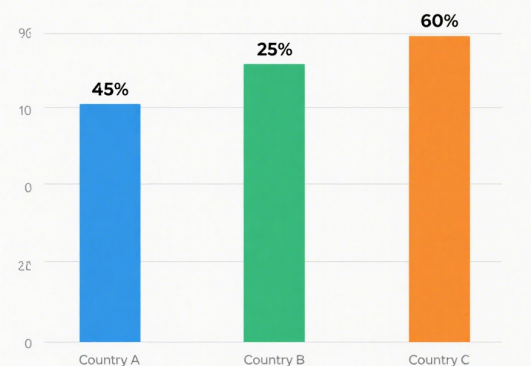

1. If part of the text is unclear, and think about its meaning.
2. If it's still confusing, try rereading, reading further, or using context clues and vocabulary tools. If needed, seek help for clarification.
3. Reflect on how these strategies improve your understanding of the text.

Read the passage below and answer the question.

Passage:

Renewable energy, like solar and wind, helps reduce carbon emissions. Some countries are investing in these technologies to combat climate change. However, solar panels need sunlight, and wind turbines need consistent wind, making them less reliable at times.

● Renewable Energy Usage by Country (2022)

1. What is the main benefit and main challenge of renewable energy, based on the text?

Benefit: Reduces carbon emissions.

Challenge: Inconsistent energy production.

2. How does the bar graph help explain renewable energy usage in different countries?

The graph shows and compares the ratio of renewable energy usage, clarifying which countries rely on it more.
