Evaluate Main Ideas and Synthesize Details

Main Ideas and Details help readers understand the main point of a text. The main idea is the overall message, while details are specific facts or examples that support it.

Read the passage and use the chart below to summarize the main idea and key details:

The North Pole has been a challenging yet captivating destination for explorers. Despite freezing temperatures and harsh conditions, people have used innovative methods to reach it. In 1926, Richard Byrd claimed to arrive by plane, followed days later by an international team in a dirigible. In 1958, the USS Nautilus submarine traveled there underwater. In 1986, Ann Bancroft became the first woman to reach the North Pole, marking an important milestone in history.
