Verb Tense, Pronoun Usage, and Sentence Structure Review

Editing and proofreading are the final steps in improving your writing. This is when you carefully check your work for errors in grammar, spelling, and word usage.

Check:

- **Sentence structure:** Ensure sentences are complete and correct.
- **Grammar:** Check verb tenses and pronoun usage.
- **Spelling:** Fix tricky words and irregular verbs.
- **Word usage:** Ensure words fit the context properly.

Read the draft below, identify the errors, underline them, and write the correct version.

Trees are important because it makes the air cleaner and **they make** healthier for everyone. They helps by reducing pollution and giving us fresh oxygen too breath. For example, trees takes in harmful gases, like carbon dioxide, and turns it into oxygen that people needs. When there is more trees, the environment become safer and better for people and animals. Planting trees in school helps students to get fresh air and makes everyone feels more healthy every day.
