## Identify Problem and Solution

**Problem and solution** shows a problem in a story and how it is fixed. The problem is what goes wrong, and the solution is how the problem is solved. Knowing the problem and solution helps understand the story better.

**Read the passage and choose the correct answer.**

Tom's pencil broke while he was writing. He tried to finish his sentence, but the pencil didn't work. Tom got up and found a sharpener on the table. He sharpened the pencil and started writing again. Tom smiled as he finished his work.

**1. What was Tom's problem?**

- A. His pencil broke.
- B. He lost his sharpener.
- C. He didn't have a pencil.

**2. How did Tom solve the problem?**

- A. He borrowed a pencil from his friend.
- B. He sharpened his pencil.
- C. He used a pen instead.

**3. What happened after Tom solved the problem?**

- A. He finished his work.
- B. He threw the pencil away.
- C. He stopped writing.
