Accent Rules in Multisyllabic Words

An accent in a word means one part of the word is said louder or stronger than the other parts. In words with more than one syllable, one syllable is accented, and the others are softer. The accent helps people say the word the right way.

Choose one answer for each question.

1. Where is the accent in the word "sunny"?

- A. On the first syllable.
- B. On the second syllable.
- C. There is no accent.

2. Which word has the accent on the second syllable?

- A. table
- B. relax
- C. sunny

3. Words ending in "-tion" usually have the accent on:

- A. The first syllable.
- B. The syllable before "-tion."
- C. The last syllable.

4. Which word has the accent on the second-to-last syllable?

- A. fantastic
- B. sunny
- C. table
