Contractions with Not

A contraction is a shorter way to write two words by combining them together. When we combine a word with "not," we make it shorter and easier to say.

Example:

I **am** = I'**m**

Write the contraction for each pair of words.

1. is not = _____

2. was not = _____

3. do not = _____

4. does not = _____

5. will not = _____

Write out the two words that make up each contraction.

1. aren't = _____

2. doesn't = _____

3. weren't = _____

4. isn't = _____

5. don't = _____

Contractions with Not - Answer Key

A contraction is a shorter way to write two words by combining them together. When we combine a word with "not," we make it shorter and easier to say.

Example:

I **am** = I'**m**

Write the contraction for each pair of words.

1. is not = isn't
2. was not = wasn't
3. do not = don't
4. does not = doesn't
5. will not = won't

Write out the two words that make up each contraction.

1. aren't = are not
2. doesn't = does not
3. weren't = were not
4. isn't = is not
5. don't = do not
