Use Text and Graphic Features Scan

Text and graphic features are tools in books or articles that help readers understand information better. Text features include things like titles, headings, bold words, or captions. Graphic features include pictures, maps, charts, or diagrams.

Read the passage and choose the correct answer.

What Makes Dogs Special?

Dogs are amazing animals. They have a strong sense of smell, which helps them find food, toys, or even people who are lost. Dogs also have sharp hearing. They can hear sounds that are too quiet for people to notice. Dogs show their feelings through their tails. When a dog wags its tail, it is usually happy. If a dog's tail is low or not moving, the dog might be scared or tired. Dogs are also great helpers. Some dogs help people who cannot see by guiding them. Other dogs work with police officers to find clues or catch bad guys. Dogs are not just pets—they are also loyal friends and hard workers!

1. What does the title tell you?

- A. It will explain why dogs wag their tails.
- B. It will explain the special traits of dogs.
- C. It will tell a story about a dog.

2. How does the picture help you understand the passage?

- A. Dogs wag their tails when they are happy.
- B. Some dogs help guide people who cannot see.
- C. Dogs have a strong sense of smell.
