Mixed Patterns in Multisyllabic Words

Multisyllabic words are big words with more than one syllable. These words follow different syllable patterns that help us understand how to decode and pronounce them. Two common patterns are **VC/CV** and **V/CV**.

Read each statement and write whether it is true(T) or false(F).

1. The first syllable in confident is closed. _____
2. The word robot is divided as rob-ot. _____
3. Family has three syllables. _____
4. The word umbrella has an r-controlled vowel in syllable. _____
5. In the word imagination, tion is a separate syllable. _____
6. Banana follows just one syllable pattern. _____
